- 5+ years' functional design and technical design experience with large-scale applications, specifically large enterprise level B2C and B2B ECommerce applications.
- Solid grasp of OOP concepts, design patterns and able to understand & create technical Design Document of the Project.
- In depth knowledge and application of Java/J2EE/Unix/ Ext JS/ Spring, web services, Spring Boot, Hibernate, Advance Java, JSP, Servlets, JDBC, Struts framework, EJB and JavaScript.
- Good knowledge of core Java, hands-on java coding experience, deep knowledge of core java & advanced Java concepts and basic knowledge of spring and hibernate.
- Knowledge of Amazon AWS glue services is an added advantage.
- Must have knowledge of web-based projects and have worked on it.
- Must have experience in Spring boot, Java, SpringMVC, Hibernate.
- Collaborative personality with the ability to build relationships both within the team and across the organization to drive results.
- Excellent leadership, decision making and communications skills.
- Strong clients orientation and ability to establish and maintain effective work relationships at all levels.

Job Description & Responsibilities

- Develop and maintain software applications using Java, Advance Java Platform, Enterprise Java and/or open source products such as J2EE, Struts, Spring, JSP, HTML-5, Servlets, Hibernate, Tomcat, JBoss, MySQL, Ant, Maven, CVS, Eclipse.
- Hands-on team member, responsible for debugging, root cause analysis and fixing the issues reported in bug tracking tools.
- Develop, design, and maintain Java/JavaScript applications with a focus on large-scale enterprise-level B2C and B2B eCommerce applications.
- Lead technical teams working on the development or maintenance of Java/JavaScript applications, providing technical guidance and mentorship.
- Integrate eCommerce payment gateways, eCommerce merchants, and banking integration platforms, video streaming and image processing technologies.
- Utilize knowledge of server deployments (Tomcat, JBOSS) and databases (MongoDB, MySQL) to ensure high-quality, scalable solutions.
- Use expertise in RestAPI's and web services to develop and maintain RESTful APIs and microservices.

ViviRooms

ViviRooms Ecomm Private Limited
